**These two courses must be taken concurrently.

For each approved major there is a program plan, which includes a list of required education and content area courses. See a content advisor to determine content major requirements and an education advisor to determine program requirements that must be met prior to application for student teaching. This includes a Methods of Teaching the Major course as well.

Note: Content area methods courses in your major may not be offered every semester. Check with your content advisor for a schedule. Professional course work less than 7 years old may be substituted with approval of your licensure advisor.

If you already have a bachelor's degree, you will need to meet with a secondary education faculty advisor to devise a plan to meet content and licensure requirements. Please bring transcripts and course descriptions from previous institutions to aid in this process.

For questions about student teaching, please contact Student Teaching Center, located in West Classroom 141, or call 303-556-2652.
