Subject: Info for Academic Reorg Discussion

Ann: As requested, I thought I would put some comments in writing for when you concatenate all the feedback regarding the academic reorganization. I discussed this with Vicki as well.

Moving forward, the reorganization should include other academic units, such as Graduate Studies, Online Education, Innovative and Lifelong Learning, and the Center for Individualized Learning so their role is acknowledged as important to the institution and that these units work in collaboration with schools and colleges.

Thanks, Nancy
