

CASE/CO-WY AMP WEEKLY NEWSLETTER

April 10, 2020

Missed a Newsletter <https://www.msudenver.edu/case/casenewsletter/>

INFORMATION YOU NEED

Summer Classes

As many as possible summer classes will be online.

Here's how it will work:

- All classes in Maymester (May 26-June 6), the eight-week summer term (June 8-Aug. 1) and the first five-week summer term (May 26-June 27) will move to online formats.
- The second five-week summer term will include online courses (June 29-Aug. 1) and some face-to-face courses (July 6-Aug. 8). The face-to-face course offerings will be reserved for classes that rely heavily on labs and field experience, with our hope being that some in-person instruction will be available by that time.
- If you are currently enrolled in a face-to-face course, it will be modified to an online course. In some cases, the online course may be synchronous, meaning that the dates and times for your course will not change but instead those class meetings will happen virtually.

Surviving the Semester

There are only 4 weeks left until finals week.

You can **SURVIVE** and **SUCCEED** this semester.

Please communicate with your professors. They will work with you to assist you in completing your assignments.

Use the online tutoring ([zoom.us/my/stemtutor1](https://zoom.us/j/912345678) or [zoom.us/my/stemtutor2](https://zoom.us/j/912345679)) if you need academic help.

Please contact the CO-WY AMP team if you need any assistance.

You are not alone in this special semester!!!

Register by April 30th
Get
A \$25 King Soopers Gift Card

Are you registered for the Fall 2020 Semester?

Register by April 30th (at least 6 credit hours) and receive a \$25 gift card to King Soopers.

(limited supply)

Email Lori Taylor

ltaylo50@msudenver.edu to receive your gift card and let us know how you are doing.

Must be a CO-WY AMP member.

Don't Get COVID 19 Scammed

1. Scrutinize all emails before downloading attached files or clicking links.
2. Hover over a website link in an email or online with your mouse cursor to reveal the actual web address before clicking on it.
3. Do not reveal personal or financial information in an email.
4. Avoid using your smartphone to open unsolicited or odd email messages.
5. Don't access or download any coronavirus maps if you are uncertain of their legitimacy. Hackers are using bogus [coronavirus maps](#)
6. Use only trusted sources for up-to-date, accurate information about COVID-19. The most authoritative sources of information are [cdc.gov](https://www.cdc.gov) and www.coronavirus.gov.
7. Verify a charity's or crowdfunding site's authenticity before making a donation. Review the Federal Trade Commission's [charity scams](#) for information.
8. Hang up on robocalls designed to trick you into giving money or revealing personal information.
9. Beware of bogus "investment opportunities."
10. Don't join in on the COVID-19 panic. Carefully evaluate the authenticity.
