

Interactive Media Production

Program Advising Checklist – Catalog Year 2016-2017 • TCM5

The Interactive Media Production concentration provides the student with the theory, production and programming practices of interactive media production. The course work includes the writing, editing, designing, and authoring of interactive projects in addition to professional experience and hands-on practice with computer hardware and software. Such productions are frequently used for education, training, marketing, public relations, and sales purposes.
