

## Interactive Media Production

Program Advising Checklist – Catalog Year 2017-2018 • TCM5

The Interactive Media Production concentration provides students foundational theory, creative media production skills, and an understanding of current industry practices. The coursework includes writing and editing, designing and authoring of interactive projects, in addition to hands-on practice and professional experience. Interactive media is frequently used for education, training, marketing, public relations, and sales purposes. Professional front-end message design, as well as contemporary delivery methods are developed in this concentration.
