Minutes approved unanimously.
- II. (11:05-11:25) Vote on CYBM certificate (Dr. Trammel invited by Dr. Li to speak if questions arise)
  - a. STEMpath Cybersecurity Certificate
    - i. Graduate New Program Phase Two  
*Language of certificate- certificate should come before the title*  
*Credit for PLA does not count for residency requirement*  
*Does the graduate catalog address residency requirement?*  
*They need to clarify that they can only take a total of 9 credit hours for PLA/Credit by Exam*  
*Equity Center is a term by DPS to ensure that teachers are able to get higher paid*  
*What is the demand for Cybersecurity in K-12 and is there data to back it?*  
*This is an incentive for teachers to get some additional training without getting so much additional training that they leave the teaching field*  
*This falls in the computer science field*  
*Why is this not being done through CS?*  
*We don't have any CS graduate programs which is what DPS is looking for*  
*How do we address the faculty need and resources?*

*16 students are waiting enrollment, with a possible nine in the pipeline*

*The will be using their affiliate faculty to cover the additional 9 courses*

*The enrollment will all be coming from DPS from now and they hope to expand it*

*What is the rationale for this certificate not going through the traditional process?*

*The catalog does not spell out the process for the certificate*

*Motion to approve the STEM Cybersecurity*

*- 3 abstentions*

*- 9 approved*
