

Special Education Major for Bachelor of Arts with Generalist (K-12) Licensure Concentration: Secondary Education (Fall 2012 through Fall 2015 catalog years)

Name: _____ 900# _____

Use this document to learn about specific requirements for your major and accompanying teacher licensure courses, and to work with your Education advisor to plan your course of study and track your progress. Please keep an updated copy of this form and leave the original on file in the School of Education Student Services Office.

For general requirements pertaining to Special Education licensure, visit the School of Education Student Services Office, WC 162, or online at www.msudenver.edu/education, and **be sure to talk with your advisor**. "Highly Qualified" status is determined by the Colorado Department of Education

Visit your advisor

- Your Special Education faculty advisor is located in the Department of Special Education, Early Childhood & Culturally and Linguistically Diverse Education (Call 303-556-6228 or visit WC 162 to make an appointment).
- You will need to choose a concentration for your Special Education major; Elementary, Early Childhood, Linguistically Diverse, or Secondary Education (requirements for the ECE, Elementary and CLD concentrations are on a separate guide).

Before you can register for most education courses:

- Attend an Application Meeting (schedules available through the School of Education Student Services Office - WC 162, 303-556-3691, www.msudenver.edu/education) to begin the process of becoming admitted to the licensure program.
- Obtain provisional and/or formal admission to the program. The requirements for each will be explained in detail at the meeting. Some courses require provisional admission, while most advanced courses require formal admission.

If you are interested in majoring in Special Education with a concentration in Secondary Education, you will need to select a content focus area. The General Studies and additional focus area courses you will need are specific to the content area. Please meet with an advisor in Special Education to discuss your options before registering for classes.

The following page outlines the General Studies courses needed depending on the content focus area you choose. Following the general studies is the major sequence, and then the content courses for your focus area. It is important to meet with your Special Education advisor throughout your entire degree to be sure you are taking the appropriate courses.

1. GENERAL STUDIES COURSES

As a Special Education major, you will need to complete the General Studies requirements specified below depending on the content area you have selected with your Special Education advisor. All courses required for licensure must be passed with a grade of C or better. General Studies coursework should be the first priority in your degree program. **Also, please note that MTH 2620-3 is not a General Studies course, but we include it in this section for consistency.**

Secondary Math Focus:

Secondary Science Focus:

Course	Substitute Course	Sem./ Year	Grade	Adv	Course	Substitute Course	Sem./ Yr	Grade	Adv
ENG 1010-3 Composing Arguments					ENG 1010-3 Composing Arguments				
ENG 1020-3 Freshman Composition II					ENG 1020-3 Freshman Composition II				
SPE 1010-3 Public Speaking					SPE 1010-3 Public Speaking				
MTH 1610-3 Integrated Mathematics I					MTH 1610-3 Integrated Mathematics I				
MTH 2620-3 Integrated Mathematics II					MTH 2620-3 Integrated Mathematics II				
Historical: 3 Credits					Historical: 3 Credits				
**Arts & Humanities: 6 Credits					**Arts & Humanities: 6 Credits				
Social & Behavioral Science I: 3 Credits					Social & Behavioral Science I: 3 Credits				
***PSY 1800-3 Developmental Ed. Psych					***PSY 1800-3 Developmental Ed. Psych				
Natural & Physical Science: 6 Credits					*BIO 1080-3 General Biology I				
					*CHE 1100-4 Principles of Chem.				
Math Focus General Studies Total :					Science Focus General Studies Total:				
36					37				

*Please note: BIO 1080-3 must be taken concurrently with BIO 1090-1, and CHE 1100-4 must be taken concurrently with CHE 1150-1. These two 1-credit lab courses can be counted toward the 17 credits for the Science focus area courses on page 4.
