Windows Instructions
Version 7.22

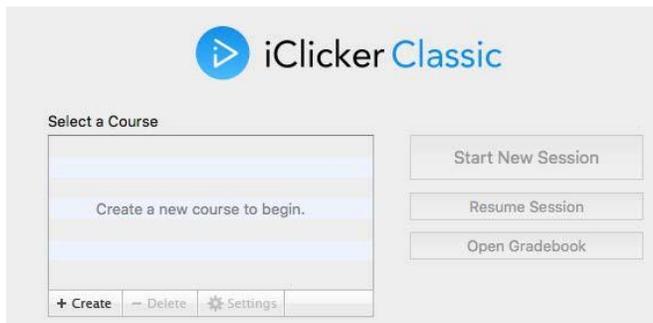

Setting up the iclicker software

The iclicker software is a folder that needs to be copied to your local computer or thumb drive. Please follow the directions below to initially setup your course.

1. Visit the Metro State iclicker website at <http://www.msudenver.edu/iclicker/> and select the Faculty Resources →→ Download Metro State Customized iclicker Software link and select Download for **Windows**.
2. Extract/Expand the zip file and that will create a "iclicker-722-win". **Note: This folder will also store your courses iclicker data, so you will want to keep this folder in a safe place and back it up regularly.**
3. Double-Click on the **iclicker.exe** icon

4. You will now click on the "+ Create" button to add a new iclicker course to hold your iclicker data.

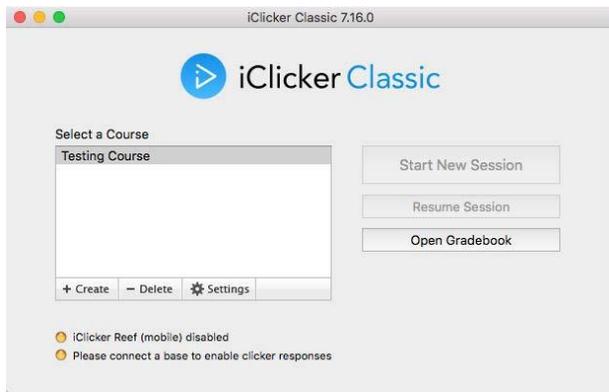

5. Enter a course name (we recommend using the same subject, course, section number as your course appears on the student class schedule)

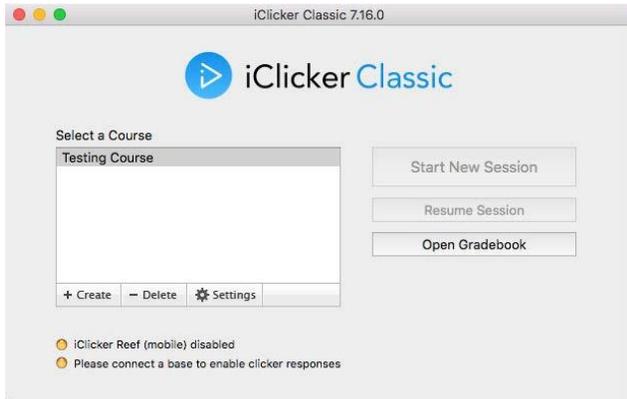

A screenshot of a form for entering a course name. It features a text input field with the text "Testing Course" entered. Below the input field is a line of text: "This name does not need to match the official course name in your LMS. You can always change your Course Name later in Course Settings." At the bottom of the form are two buttons: "Cancel" and "Create".

Repeat steps 4 through 5 to add additional courses that you would like to use iclickers for

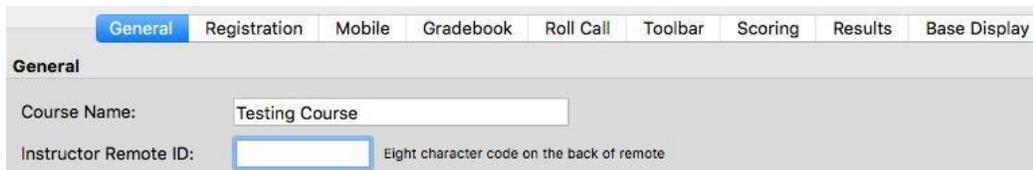

6. Next Click the course you want to setup

7. Then click on Settings

8. On the General tab, you will want to enter the ID found on the back of the instructor remote in the Instructor's Remote ID field.

9. Click on the Gradebook Tab

10. Enter Metropolitan State University of Denver under Primary Institution: then click on Select Course. When you click this it will then prompt you for your Blackboard login, Enter and click on Login. You will then choose the course you are wanting to sync roster with and click select.
