Why Traditional Lectures Suck

Stop Sign Characteristics

- 75 mm across opposite sides of a red octagon
- 20 mm white border
- White uppercase letters are 25 cm tall
- Reflective field and border
- Previously were mounted 2-3 above the ground

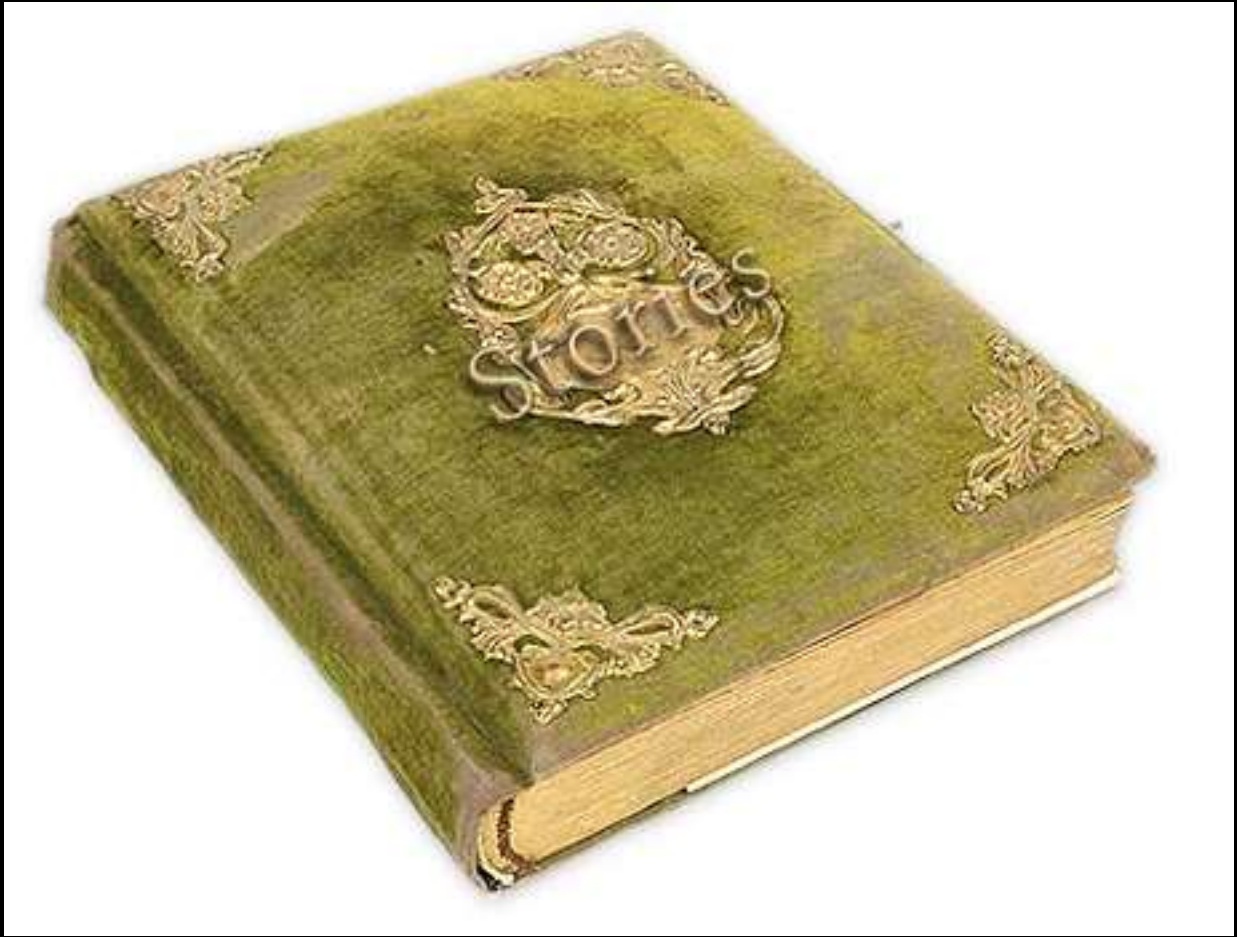

STOP

**Just because I have a short
attention span doesn't
mean I**

Presentation Makeover

Or, how I changed a sucky presentation into a pretty cool one...

Signs and Symptoms of Congestive Heart Failure

- Symptoms based on whether failure is on left or right side of heart
- Left sided heart failure results in pulmonary edema
 - Tachypnea
 - Hypoxia
 - Orthopnea
 - Tripod breathing
 - Low oxygen saturation

Right Ventricular Failure and Pitting Edema

- Causes peripheral edema
- Fluid accumulation under the subcutaneous tissue
- Usually in dependent portions such as feet and ankles
- Can be “pitting” which means that a depression mark is left when the clinician presses on the area
