NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 1 PRINCIPAL ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES

Organization

Metropolitan State University of Denver Foundation, Inc. (the Foundation) is a Colorado nonprofit organization established to promote the general welfare and development of Metropolitan State University of Denver (the University).

The Foundation is the sole member of 965 Santa Fe, LLC (the LLC), a Colorado limited liability company. The LLC owns and rents the Center for Visual Arts (the CVA) facility to the University.

The consolidated financial statements include the accounts of the Foundation and the LLC because the Foundation has both control and an economic interest in the LLC. All significant intercompany accounts and transactions have been eliminated in consolidation. Unless otherwise noted, these consolidated entities are hereinafter referred to as the "Foundation".

Adoption of FASB Accounting Standards Updated

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). Subsequent to May 2014, the FASB issued six ASU's to clarify certain matters related to Topic 606. Topic 606 supersedes the revenue recognition requirements in FASB ASC 605, Revenue Recognition, and requires the recognition of revenue when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services. The updates address the complexity of revenue recognition and provide sufficient information to enable financial statement users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The financial statements reflect the application of ASC 606 guidance beginning in July 1, 2019 under the modified retrospective approach. No cumulative-effect adjustment in net assets was recorded as the adoption of ASU 2014-09 did not significantly impact the Foundation's reported historical revenue.

The Foundation has adopted the accounting guidance in Financial Accounting Standards Board (FASB) Accounting Standard Update (ASU) 2018-08, *Not-for-Profit Entities (Topic 958): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. This ASU was issued to clarify accounting guidance for contributions received and contributions made. The amendments to this ASU assists entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) within the scope of Topic 958, *Not-for-Profit Entities*, or as an exchange (reciprocal) transactions subject to other guidance and (2) determining whether a contribution is conditional.

The consolidated financial statements reflect the application of ASU 2018-08 beginning July 1, 2019 using the prospective approach. The adoption of this ASU did not result in an impact on the Foundation's reported historical revenue.

NOTE 1 PRINCIPAL ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash, Cash Equivalents, and Restricted Cash

The Foundation considers all cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, to be cash and cash equivalents. Cash and highly liquid financial instruments restricted to endowment, held on behalf of others or other long-term purposes of the Foundation are excluded from this definition. The Foundation serves as a repository of funds raised through the *Colorado Rockies Foundation 50/50 Raffle* on behalf of Metropolitan State University of Denver Alumni Association, a separate Colorado nonprofit organization. Restricted cash held for University consists of receipts for Athletic Fields, HLC@Metro, and athletic camps hosted by the University.

	2020	2019
Cash and Cash Equivalents	\$ 1,226,392	\$ 954,916
Cash Restricted for Distribution to University	117,528	173,612
Cash Restricted for Alumni Association	18,884	259,458
	\$ 1,362,804	\$ 1,387,986

Promises to Give

Unconditional promises to give expected to be collected within one year are recorded at net realizable value. Unconditional promises to give expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the consolidated statements of activities. Management's estimate of the allowance for uncollectible promises to give is based on historical collection rates and an analysis of the collectability of individual promises.

Property and Equipment

Property and equipment additions over \$5,000 with useful lives exceeding one year are recorded at cost, or if donated, at fair value on the date of donation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, at present only the building at 965 Santa Fe is subject to depreciation over a 30 year useful life. When assets are sold or otherwise disposed of, the cost and related depreciation are removed from the accounts, and any remaining gain or loss is included in the consolidated statements of activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed when incurred.

The Foundation reviews the carrying values of property and equipment for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment during the years ended June 30, 2020 and 2019.

Property and equipment also includes works of art which are capitalized at original cost, or fair value if donated, and are not depreciated because the Foundation intends to preserve these assets in perpetuity.

NOTE 1 PRINCIPAL ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Beneficial Interest in Charitable Trust Held by Others

The Foundation was named as an irrevocable beneficiary of a charitable trust held and administered by an independent trustee. The trust was created independently by the donor and was administered by an outside agent designated by the donor. Therefore, the Foundation had neither possession nor control over the assets of the trust. At the date the Foundation received notice of the beneficial interest, a contribution with donor restrictions was recorded in the consolidated statements of activities, and a beneficial interest in charitable trust held by others was recorded in the consolidated statements of financial position at fair value using present value techniques and risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the expected distributions to be received under the agreement. Thereafter, the beneficial interest in the trust has been reported at fair value in the consolidated statements of financial position. During the year ended June 30, 2019, the donor passed away and the Foundation received a full distribution of the remaining fair market value of the trust. The trust assets were transferred to the scholarship endowment.

Investments

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair values in the consolidated statements of financial position. Net investment return/(loss) is reported in the consolidated statements of activities and consists of interest and dividend income, realized and unrealized capital gains and losses, less external and direct internal investment expenses.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor- (or certain grantor-) imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor- (or certain grantor-) imposed restrictions. The governing board has designated, from net assets without donor restrictions, net assets for a board-designated endowment (see Note 9).

Net Assets With Donor Restrictions – Net assets subject to donor- (or certain grantor-) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. The Foundation reports contributions restricted by donors as increases in net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the consolidated statements of activities as net assets released from restrictions.

METROPOLITAN STATE UNIVERSITY OF DENVER FOUNDATION, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 1 PRINCIPAL ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition

The Foundation records contributions in accordance with the requirements of accounting principles generally accepted in the United States of America for nonprofit entities. The Foundation recognizes revenue for contributions (and grants considered to be contributions) based upon the presence or absence of donor-imposed conditions. For those contributions absent of donor-imposed conditions, revenues are recognized at the time the Foundation is notified of the contribution and that promise is verified, regardless of the timing of cash receipt. For contributions with donor-imposed conditions – that is, those with a measurable performance or other barrier and a right of return or release – revenues are recognized at the time the conditions are substantially met, regardless of the timing of cash receipt.

Promises to give are recognized initially at fair value. Fair value is estimated giving consideration to anticipated future cash receipts (after allowance is made for uncollectible contributions) and discounting such amounts at a risk-adjusted rate commensurate with the duration of the donor's payment plan. Amortization of the discounts is recorded as additional contributions revenue.

When a donor restriction expires, that is, when a stipulated time restriction ends, or the purpose of the restriction is accomplished, net assets with restrictions are reclassified to net assets without restrictions and reported in the consolidated statements of activities as Net Assets Released from Restrictions.

Contributions of assets other than cash are recorded at their estimated fair value. Contributions of services are recognized if the services received (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation.

Donated Professional Services, In-Kind Contributions, and Services Received from the University

Volunteers contribute significant amounts of time to the Foundation's program services, administration, and fundraising and development activities; however, the consolidated financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by accounting principles generally accepted in the United States of America. Contributed goods are recorded at fair value at the date of donation. Donated services received from Affiliated Organizations are recorded at the respective fair values of the services received in accordance with accounting principles generally accepted in the United States of America (see Note 10).

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the consolidated statements of activities. The consolidated statements of functional expenses present the natural classification detail of expenses by function. Program activities are those that are conducted in accordance with the Foundation's nature of operations and certain necessary costs. Management and general activities are those that are not identifiable with a single program or fundraising activity, but that are indispensable to the conduct of those activities and to the Foundation's existence.

METROPOLITAN STATE UNIVERSITY OF DENVER FOUNDATION, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 1 PRINCIPAL ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Functional Allocation of Expenses (Continued)

Fundraising activities involve inducing potential donors to contribute money, securities, services, materials, facilities, other assets, or time. Costs that are directly attributable to a specific functional area of the Foundation are reported as expenses of those functional areas. Certain other costs that benefit multiple functional areas have been allocated across program and supporting services based on management's best estimate of the functions that benefit from the expense.

Income Taxes

The Foundation is organized as a Colorado nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3), qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(iv), and has been determined not to be a private foundation under Section 509(a)(1). The LLC is treated as a disregarded entity for tax purposes, and is incorporated into the tax return filed by the Foundation.

The Foundation is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Foundation is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purposes. The Foundation files an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS to report its unrelated business taxable income.

Management believes that the Foundation has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the consolidated financial statements. The Foundation would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and those differences could be material.

Reclassification

Certain reclassifications of amounts previously reported have been made to the accompanying consolidated financial statements to maintain consistency between periods presented. The reclassification had no impact on previously reported net assets.

METROPOLITAN STATE UNIVERSITY OF DENVER FOUNDATION, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 1 PRINCIPAL ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial Instruments and Credit Risk

The Foundation manages deposit concentration risk by placing cash and money market accounts with financial institutions believed by management to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, the Foundation has not experienced losses in any of these accounts. Credit risk associated with promises to give is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from individuals, corporations, and foundations supportive of the Foundation's mission. Investments are made by diversified investment managers whose performance is monitored by management and the Investment Committee of the Board of Directors. Although the fair values of investments are subject to fluctuation on a year-to-year basis, management believes that the investment policies and guidelines are prudent for the long-term welfare of the Foundation.

Subsequent Events

The Foundation has evaluated subsequent events through October 16, 2020, the date the consolidated financial statements were available to be issued.

NOTE 2 LIQUIDITY AND AVAILABILITY

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the consolidated statements of financial position date, comprise the following as of June 30:

	<u>2020</u>	<u>2019</u>
Cash and Cash Equivalents	\$ 1,226,392	\$ 954,916
Investments	1,248,078	1,514,089
Receivable from University	8,916	10,630
Total	<u>\$ 2,483,386</u>	<u>\$ 2,479,635</u>

The Foundation's liquidity is structured so its financial assets are available as its general expenditures, liabilities, and other obligations come due. A portion of Foundation's operations is funded by investment income without donor restrictions which is expendable as needed. To manage unanticipated liquidity needs, the Foundation will calculate, on a regular basis, assumed liquidity requirements for the Non-Endowment assets. These projections will provide a net total assumed liquidity dollar amount that the Foundation has readily available for expenditures.

The Foundation's endowment funds consist of donor-restricted and board-designated endowments. Income from earnings are distributed annually from each qualifying endowment fund to its associated expendable account to be available for fulfilling each individual's restricted purpose. The endowment has a spending policy statement, which uses the banded inflation method to determine endowment distributions (see Note 7).

NOTE 2 LIQUIDITY AND AVAILABILITY (CONTINUED)

Although no spending is intended from the board-designated endowment (other than amounts appropriated for general expenditures as part of annual endowment spending appropriation), these amounts could be made available if necessary.

NOTE 3 FAIR VALUE MEASUREMENTS AND DISCLOSURES

Certain assets are reported at fair value in the consolidated financial statements. Fair value is the price that would be received to sell an asset in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets that the Foundation can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. These include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset. In these situations, the Foundation develops inputs using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to the Foundation's assessment of the quality, risk or liquidity profile of the asset.

A significant portion of the Foundation's investment assets are classified within Level 1 because they are comprised of open-end mutual funds and investment trusts with readily determinable fair values based on daily redemption values.

NOTE 3 FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

The fair value of the Foundation's investment in private equity is reported at fair value, as determined by the Foundation, utilizing the most current information provided by the investee. This is considered to be a Level 3 measurement.

The Foundation uses net asset value (NAV) per share, or its equivalent, such as member units, as a practical expedient to estimate the fair value of a limited liability company, which does not have a readily determinable fair value. The investment, which is valued using NAV per share as practical expedient is not classified in the fair value hierarchy.

The following table presents assets measured at fair value on a recurring basis, except those measured at cost or by using NAV per share as a practical expedient, as identified below, at June 30:

The Foundation has an investment in a limited liability company that calculates NAV per share, with a fair value of, \$364,103 and 487,106 at June 30, 2020 and 2019, respectively. Redemptions are permitted monthly and quarterly with a 90-day redemption notice. The Foundation has no unfunded commitments as of June 30, 2020 and 2019. The investment's objective is to provide exposure to European and U.S. subinvestment grade corporate debt while seeking to achieve total returns with modest volatility and focusing on capital preservation and risk mitigation.

NOTE 6 LEASES

During the year ended June 30, 2010, the LLC purchased a commercial building at 965 Santa Fe Drive to house the operations of the CVA. Effective March 1, 2010, the LLC and the University entered into a three-year noncancellable lease which has since been renewed through June 30, 2021. Under the agreement, the University paid annual rent for the years ended June 30, 2020 and 2019 in the amount of \$100,000. In addition to the annual minimum rent, the University reimburses the LLC for actual expenses incurred for the maintenance and operation of the premises, which approximate \$33,000 and \$25,000 for the years ended June 30, 2020 and 2019.

NOTE 7 ENDOWMENT

The Foundation's endowment (Endowment) is composed of 71 individual funds established by donors (Perpetual Endowment) and 135 purpose-restricted quasi-endowment funds (Quasi-Endowment). The funds were established by donors primarily to provide scholarships to eligible students of the University, and to support academic departments, student activities, and other purposes of the University. The Endowment also includes certain net assets without donor restriction that have been designated for endowment by the Board of Directors (Board-Designated Endowment). Perpetual Endowment funds are charitable funds whose principal must be preserved in perpetuity as a condition imposed by the donor. Quasi-Endowment funds are purpose-restricted gifts from donors whose principal is designated by the board and intended to be maintained in perpetuity, but which may be expended in accordance with the University's spending-rate policy, with no requirement that any such expenditure be replenished. Net assets associated with Endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Foundation's Board of Directors has interpreted the Colorado Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair values of original Perpetual Endowment gifts, as of each gift date, absent explicit donor instructions to the contrary. At June 30, 2020 and 2019, there were no contrary donor stipulations. As a result of this interpretation, the Foundation retains in perpetuity (a) the original value of initial and subsequent gift amounts (including promises to give net of discount and allowance for doubtful accounts donated to the Endowment and (b) any accumulations to the Endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. Donor-restricted amounts not retained in perpetuity are subject to appropriation for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA. The following factors are considered in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the Foundation and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Foundation
- The investment policies of the Foundation

NOTE 7 ENDOWMENT (CONTINUED)

The Foundation had the following endowment net asset composition by type of fund as of June 30:

	2020		
	Without Donor Restriction	With Donor Restrictions	Total
Board-Designated Endowment Funds	\$ 979,371	\$ -	\$ 979,371
Purpose-Restricted Quasi-Endowment Funds	-	8,256,610	8,256,610
Donor-Restricted Endowment Funds:			
Original Donor-Restricted Gift Amount and Amounts Required to be Maintained in Perpetuity by Donor	-	8,516,200	8,516,200
Accumulated Investment Gains	-	303,969	303,969
Total	<u>\$ 979,371</u>	<u>\$ 17,076,779</u>	<u>\$ 18,056,150</u>
	2019		
Board-Designated Endowment Funds	\$ 1,000,000	\$ -	\$ 1,000,000
Purpose-Restricted Quasi-Endowment Funds	-	7,656,833	7,656,833
Donor-Restricted Endowment Funds:			
Original Donor-Restricted Gift Amount and Amounts Required to be Maintained in Perpetuity by Donor	-	7,728,867	7,728,867
Accumulated Investment Gains	23,178	482,210	505,388
Total	<u>\$ 1,023,178</u>	<u>\$ 15,867,910</u>	<u>\$ 16,891,088</u>

From time to time, certain donor-restricted endowment funds may have fair values less than the amount required to be maintained by donors or by law (underwater endowments). The Foundation has interpreted UPMIFA to permit spending from underwater endowments in accordance with prudent measures required under law. At June 30, 2020 and 2019, deficiencies of \$34,543 and \$1,742 have been reported in net assets with donor restriction on those dates, respectively. The deficiencies resulted from unfavorable market fluctuations. The Foundation has suspended distributions from these funds until such time as the deficiencies are recovered via market returns; however, there is no legal obligation for the Foundation to fund the deficiencies.

Investment and Spending Policies

The Foundation has adopted investment and distribution policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by the endowment. Under this policy, as approved by the Board of Directors, endowment assets are invested in a manner intended to maintain or increase the dollar value of the portfolio after annual distribution expenses and fees in order to provide the benefit intended by donors. To satisfy its long-term rate-of-return objectives, the Foundation relies on a total-return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7 ENDOWMENT (CONTINUED)

Investment and Spending Policies (Continued)

Effective January 1, 2014, the Foundation adopted a banded inflation method to determine endowment distributions based on the Higher Education Price Index (HEPI), with the resulting rate subject to a minimum of 3% and a maximum of 5%. Barring specific requirements for each individual endowment, distributions from Donor-Restricted Endowments are limited to the excess of the fair values of the Donor-Restricted Endowments over the sum of the original and subsequent gift amounts. In establishing this policy, the Foundation considered the long-term expected return on the Endowment, and set the rate with the objective of maintaining the purchasing power of the Endowment over time.

Changes in Endowment net assets are as follows for the years ended June 30:

NOTE 12 COMMITMENTS AND CONTINGENCIES

The Foundation has agreements with the University to use its best efforts to raise cash and in-kind contributions for University Hospitality Center (HLC@Metro), and for recently completed construction and improvement of the University's athletic fields. The agreements are conditioned on the Foundation's ability to collect donor contributions restricted to the respective projects; as contributions are collected, the Foundation records a liability to HLC@Metro or the University, as appropriate, and a corresponding contribution expense.

The agreements also require HLC@Metro to transfer excess revenues, after paying expenses and funding certain reserves, to the Foundation. The Foundation may use the funds distributed from HLC@Metro's excess revenues to further the general academic objectives and priorities of the University so long as at least 50% of such funds are used for scholarships.

NOTE 14 GLOBAL PANDEMIC

The COVID-19 global pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to the Foundation, COVID-19 may impact various parts of its fiscal year 2021 operations and financial results, including investment valuations, return on investments, and ability to secure contributions. Management believes the Foundation is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events are still developing.
