

Civil Engineering Technology offers a minor in Architecture (ARCH) for interested students.

This option provides students the opportunity to become familiar with architecture and develop a specialized area of interest within the field. In pursuit of the minor, students will get to work hands-on with their own designs and see the

collaboration between fields. Additionally, students who complete the minor in Architecture have a standing invitation to further pursue the subject at the University of Pécs. The Architecture minor is composed of 18 credit hours.

Students interested in the minor do not need an extensive math background.

To see the descriptions of the courses required, please visit [the Catalog](#).

**Architecture Minor – 18 hours**

Required Classes		Prerequisites	Credit Hours
ARCH 2001	Introduction to Architecture	CET 1215	3
ARCH 2002	Architectural Design – Studio 1	CET 1215	3
ARCH 2003	Building Structures	CET 1215 or IND 1450 or MET 1200	3
ARCH 3001	Architectural Interior Design	ARCH 2002	3
ARCH 3002	Architectural Design – Studio 2	ARCH 2002	3
ARCH 3003	Digital Presentations in Architecture	CET 1215	3
