MSU Denver Course

Course Subject Code BUS
Course Number 1950
Course Title Business Communication

MSU Denver Course Description

This marketing course explores multiple forms of communication within a business environment. Emphasis is placed on writing, listening, speaking, nonverbal and interpersonal communication with internal and external business audiences. Students apply the principles learned to written exercises and oral presentations.

This course was previously MKT 2040, then an omnibus BUS 190A - all are equivalent, but transfers should only come in as BUS 1950. Any transfer courses that previously came in as MKT 2040 are okay to now bring in as BUS 1950.

MSU Denver Course

Course Subject Code CHE
Course Number 1100
Course Title Principles of Chemistry

MSU Denver Course Description

This course is a study of the fundamentals of chemistry. A survey of atomic structure, periodicity, bonding, nomenclature, stoichiometry, gas laws, and solution chemistry is provided for those students with no background in these areas.

Similar Titles

- Introductory Chemistry
- Chemistry for Non-Majors
- Chemistry for Allied Health

Keywords or prerequisites

List any key elements or course prerequisites that a transfer course should cover

- Should be either stand alone, or followed by an introductory organic course
- Should NOT serve as prerequisite for more advanced chemistry, in particular organic chemistry
- Should NOT be the course sequence intended for science / STEM / chemistry majors
- Should be a non-majors / health careers course pathway
- Should be intended for students with little prior experience with chemistry

Other items to consider

List anything else that will help the Transfer Team identify a suitable equivalent course

- Nothing to consider

Does this course guideline require additional training?

If yes, then the Office of the Registrar Transfer Team will coordinate training time.

Course Title	Introduction to Latin American History

MSU Denver Course Description

This course introduces students to the history of Latin America. It explores relationships among indigenous peoples, Europeans and Africans; the responses of each group to the dynamics of colonial contact; the development and maturation of colonial society; and the ways that Latin Americans have sought to construct stable nation-states and dynamic economies since gaining their independence. Although the course focuses primarily on broader social, economic and political transformations of the last 500 years, it also pays considerable attention to the ways these changes shaped everyday life, and the way people made sense of those changes.

- Starting 2020-2021, the 1010 language courses will carry a GS-Oral Communication attribute.
- For a transfer course to qualify for the attribute, it should:
 - carry the same number of credit hours
 - have the same or similar proportion of oral activities
 - have the same or similar final presentation assignment
- 5 and 4-credit hour transfer courses are most likely a match.
- 3-credit hour transfer courses don't qualify for the GS attribute.

Does this course guideline require additional training?

If yes, then the Office of the Registrar Transfer Team will coordinate training time.

MSU Denver Course

Course Subject Code PSY

Course Number 1001

Course Title Introductory Psychology

MSU Denver Course Description

This course presents basic concepts, principles, and methods involved in the scientific study and understanding of human behavior. Attention is given to organic bases of human and other animal behavior with emphasis on the scientific method, behavioral neuroscience, sensation and perception, learning, cognition, personality, mental health, social behavior, and developmental processes. This course is required for all psychology majors and minors.

Similar Titles

- General Psychology
- Introduction to Psychology
- There are others that vary by institution

Keywords or prerequisites

List any key elements or course prerequisites that a transfer course should cover

Needs to cover all, or nearly all (missing 1 okay), of the major areas listed in catalog description:

- Scientific method (or research methods or similar)
- Behavioral neuroscience (or brain & behavior or similar)
- Sensation and perception (mention of the senses)
- Learning (could mention classical/operant conditioning instead)
- Cognition (memory, thinking, or similar)
- Personality (individual differences okay)
- Mental health (disorders and treatments, or similar)
- Social behavior (group dynamics, stereotyping/prejudice, conformity/obedience)
- Development (something about development/change over the lifespan).

ACME Transfer Course Guidelines

Other items to consider

List anything else that will help the Transfer Team identify a suitable equivalent course

- Some schools offer this as a two-semester sequence. In that case, and/or where some, but not all, areas are covered, course should come in as PSY8888, with SB20 attribute for GS (for non-majors). If areas are all covered, should come in as PSY1001 (SB20 attribute).
- If student has full two-semester sequence from a school that offers it in that format, should receive both PSY8888 and PSY1001.

Does this course guideline require additional training?

If yes, then the Office of the Registrar Transfer Team will coordinate training time.

- Yes, let's meet

Course Attribute: SB12 (old), SB20 (new)

ACME Transfer Course Guidelines

Course Title	Abnormal Psychology

MSU Denver Course Description

This course examines and evaluates the major theories of abnormal behavior: biological, behavioral, cognitive, and sociocultural. The course provides a description of the cognitive, behavioral, and emotional patterns defined as abnormal, and examines the current classification system and assessment procedures. Students will examine causal models of abnormal behavior from an integrated systems approach. Biological, psychological and social treatments of psychological disorders are also discussed and evaluated. Classification, etiology and treatment will be examined using case studies.
