

Master of Science in Nutrition and Dietetics*

*Effective Fall 2021, the Master of Science in Human Nutrition and Dietetics will be changing to the Master of Science in Nutrition and Dietetics (MSND)

Prerequisite Requirements:

Prerequisite Course Information:

<u>Prerequisite</u>	<u>MSU Denver Course Information</u>	<u>Community College Course Information</u>
Chemistry	CHE 1100 Principles of Chemistry	CHE 101 Intro to Chemistry I (5 credits)
Organic and Biological Chemistry	CHE 2100 Introduction to Organic and Biological Chemistry	No transfer equivalency
Human Anatomy and Physiology ³	BIO 2310 Human Anatomy and Physiology I BIO 2320 Human Anatomy and Physiology II	BIO 201 Human Anat/Physiol I (4 credits) BIO 202 Human Anat/Physiol II (4 credits)
Human Nutrition	NUT 3170 Advanced Human Nutrition ¹	No transfer equivalency
Medical Nutrition Therapy	NUT 4800 Medical Nutrition Therapy ²	No transfer equivalency

¹All science prerequisites must be completed before students are permitted to take NUT 3170

²NUT 3170 is a prerequisite for NUT 4800

³General Biology is not a prerequisite for the MSND however, General Biology with Lab may be a prerequisite for Human Anatomy and Physiology courses at some institutions

Prerequisite Requirements for Starting the MSND Program:

- **Students must have all science prerequisites completed prior to their entry term in the MSND program (chemistry, organic and biological chemistry, anatomy and physiology)**
- **The upper division human nutrition course and medical nutrition therapy courses can be completed after starting the MSND program; these courses can be completed alongside graduate coursework**
 - The upper division human nutrition course and medical nutrition therapy prerequisites must be completed with a grade of C- or higher within the first year of the term of acceptance into the program
