

Bachelor of Science in Nutrition Science

Department of Nutrition

303.615.0990

Students who attain a Bachelor of Science degree with a major in Nutrition Science, will be prepared for graduate level nutrition/food science study or professional health programs (e.g. physician assistant, medical doctor, physical therapy).

Students must earn a grade of “C-” or better in all courses required for the major in order to progress through the program. Courses with grades less than “C-” will need to be repeated in order for the student to take any other courses for which the first course is a prerequisite. All general requirements of the University for a Bachelor of Science degree must be met prior to graduation. In addition, students must maintain a minimum cumulative GPA of 2.0 and GPA of 3.0 or higher in the HND major.

The Nutrition Science major is housed in the Nutrition Department. Students enrolling in the major must confer with a department advisor as soon as possible. For more information, call 303-615-0990.
