

Nutrition and Dietetics Major, B.S.

Department of Nutrition

303.615.0990

Students who attain a Bachelor of Science degree in Nutrition and Dietetics will be prepared for traditional, non-traditional, and entrepreneurial positions in health care that utilize knowledge of nutrition. Professionals trained in nutrition have numerous career options due to the growing emphasis on nutrition, health and wellness.

The Nutrition and Dietetics major includes a Didactic Program in Dietetics (DPD) which has been granted Accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, 312-899-0040 ext. 5400, acend@eatright.org. Completion of a DPD program is one step required in the process for becoming a registered dietitian nutritionist (RDN). To become an RDN, students must also apply for and complete an accredited internship program and pass a national examination administered by the Commission on Dietetic Registration. Effective January 1, 2024, the Commission on Dietetic Registration (CDR) will require a minimum of a master's degree to be eligible to take the credentialing exam to become a registered dietitian nutritionist (RDN).

Students must earn a grade of "C-" or better in all courses required for the major in order to progress through the program. Courses with grades less than "C-" will need to be repeated in order for the student to take any other courses for which the first course is a prerequisite. All general requirements of the University for a Bachelor of Science degree must be met prior to graduation. In addition, students must maintain a minimum cumulative GPA of 2.0 or higher in the major.

The Nutrition and Dietetics major is housed in the Nutrition Department. Students enrolling in the major must confer with a department advisor as soon as possible. For more information, call 303-615-0990.

General Studies Course Requirements

Quantitative Literacy (3 hours required for graduation; 4 hours required by major):

MTH 1210 Introduction to Statistics 4

Written Communication (6 hours required):

(Courses chosen by student) 6

Oral Communication (3 hours required):

(Course chosen by student) 3

Historical (3 hours required; also see Global Diversity requirement below):

(Course chosen by student) ** 3

Arts and Humanities (6 hours required; also see Global Diversity requirement below):

(Courses chosen by student) ** 6

Natural and Physical Sciences (6 hours required for graduation; 9 hours required by major):

BIO 1080 General Biology I 3

BIO 1090 General Biology Laboratory I 1

CHE 1100 Principles of Chemistry * 4

CHE 1150 Principles of Chemistry Laboratory..... 1

* MTH 1110 is a prerequisite

Social and Behavioral Sciences (6 hours required; also see Global Diversity requirement below):

PSY 1001 Introductory Psychology 3

(Course chosen by student) ** 3

Global Diversity (3 hours required):

Nutrition majors may fulfill the global diversity requirement by taking an approved course within one of the following categories: arts and humanities; historical; or social and behavioral sciences I. If a course is used to fulfill both the global diversity requirement and another general studies category, only 3 semester hours will apply to the student's degree requirements. (3)

Total general studies hours for major 37

Nutrition and Dietetics Major for Bachelor of Science

REQUIRED COURSES			SEMESTER HOURS
BIO	2310	Human Anatomy and Physiology I	4
BIO	2320	Human Anatomy and Physiology II	4
CHE	2100	Introduction to Organic and Biological Chemistry	4
CHE	2150	Introduction to Organic and Biological Chemistry Lab	1
HCM	3150	Health Care Organization and Management	3
NUT	1800	Careers in Nutrition and Dietetics	1
NUT	2040	Introduction to Nutrition	3
NUT	3150	Advanced Nutrition – Macronutrients	3
NUT	3160	Advanced Nutrition – Micronutrients	3
NUT	3300*	Cultural Aspects of Nutrition	3
<i>NUT</i>	<i>3200</i>	<i>Nutrition and Sports Performance</i>	<i>3 OR</i>
<i>NUT</i>	<i>3400</i>	<i>Nutrition and Weight Management</i>	<i>3</i>
NUT	3500	Food Safety	3
NUT	3700	Nutrition Education and Counseling	3
NUT	4200	Lifecycle Nutrition for Majors	3
NUT	4210	Community Nutrition	3
NUT	4300	Management in Dietetics	3
NUT	4720	Nutrition Capstone	3
NUT	4800	Medical Nutrition Therapy	4
RST	1200	Basic Cooking Skills	3
Total hours for major			57

* This course satisfies the Multicultural Requirement and is also a required course for this major.

** One of these courses must satisfy the Global Diversity requirement.

Degree Totals:

Credit hours for major	57
Credits hours for general studies	37
Credit hours for electives	26
Total Credit Hours	120

What Can I do with A Bachelor's Degree in Nutrition and Dietetics?

CLINICAL: Work to safeguard health and change nutrition behaviors in settings such as hospitals, clinics, nursing homes, diabetes care clinics, and exercise and fitness centers

PUBLIC HEALTH NUTRITION: Work to safeguard the health of groups of people by working in federal, state, and local government agencies, such as Peace Corps and WIC or private public health programs

FOOD SERVICE MANAGEMENT: Provide leadership in hospitals, schools, and restaurants through menu development and planning, budgeting, purchasing, and management

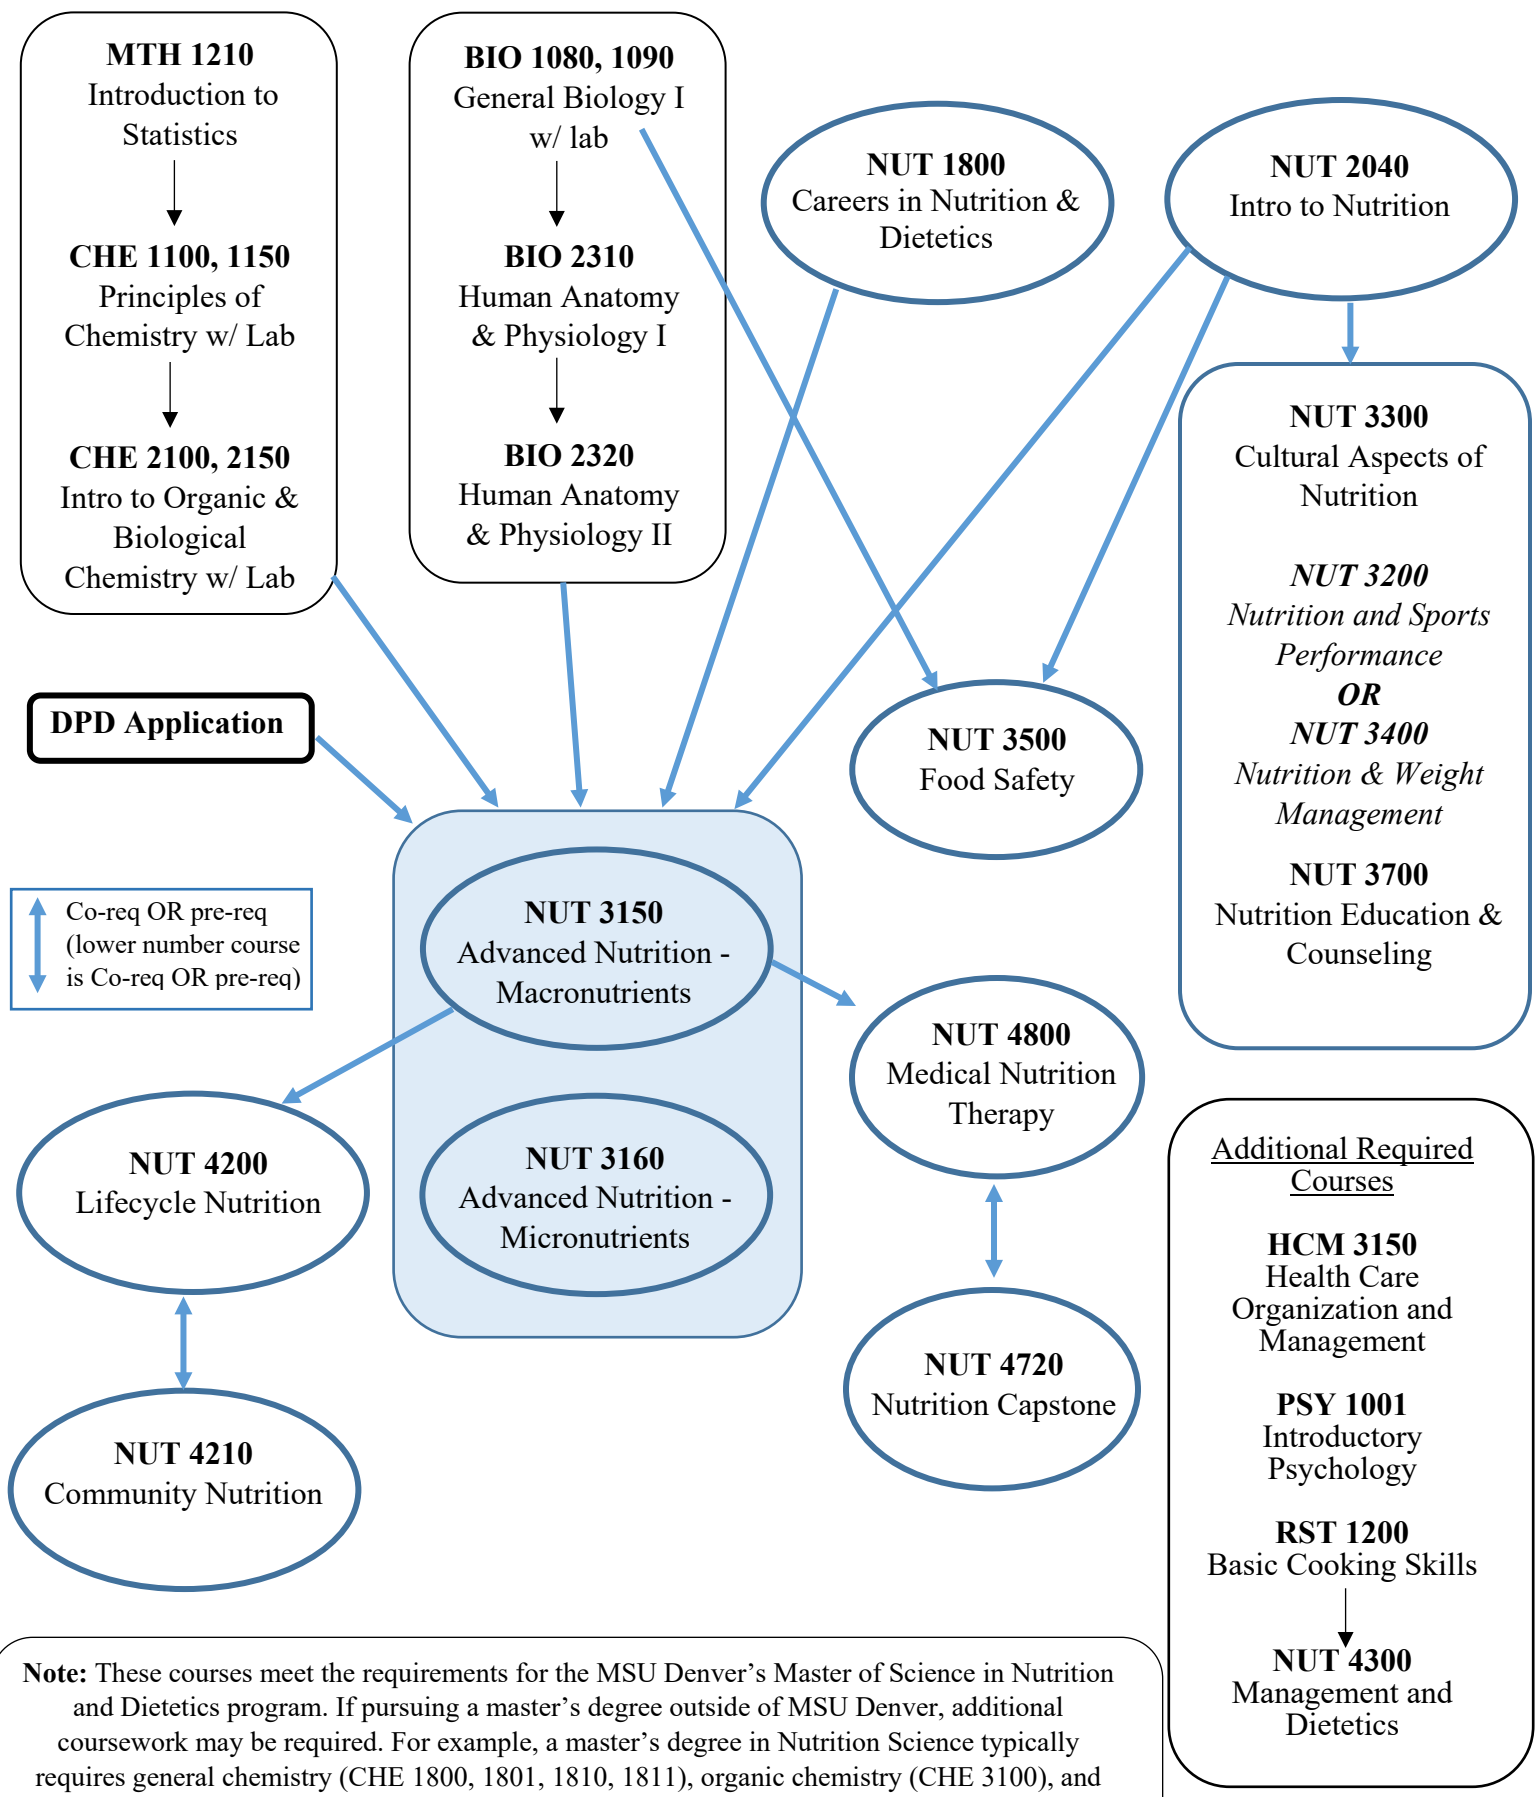

INDUSTRY: Work with food and nutrition-oriented companies to formulate new food products, develop marketing campaigns, and provide health programs

CONSULTING: Build your own health and nutrition business providing nutritional counseling, education and programming, writing and communications

TEACHING: Provide nutrition education in community, wellness, school and healthcare settings.

Nutrition and Dietetics Degree Pathway Catalog 2021-2022

Note: These courses meet the requirements for the MSU Denver's Master of Science in Nutrition and Dietetics program. If pursuing a master's degree outside of MSU Denver, additional coursework may be required. For example, a master's degree in Nutrition Science typically requires general chemistry (CHE 1800, 1801, 1810, 1811), organic chemistry (CHE 3100), and biochemistry (CHE 4310). Please consult with the master's degree program for requirements and a nutrition advisor for substituting those courses in the ND degree.
