

**THE UNIVERSITY OF COLORADO
CANCER CENTER PRESENTS:
CANCER RESEARCH
EXPERIENCES FOR
UNDERGRADUATES
(CREU)**

PROGRAM SUMMARY:

Our summer research program allows students to spend ten weeks in laboratories at the CU Anschutz Medical campus, the largest academic medical center in the Rocky Mountain Region. The goal of the program is to engage scientific curiosity in the next generation of scientists, challenging students to consider cancer-related careers in the future. Projects range from researching basic mechanisms of cancer to translational studies that strive to bring cancer biology research into the clinic.

EVENTS AND HIGHLIGHTS:

- Twice-weekly cancer lectures
- Professional development
- Research projects
- Clinical/Translational Workshops
- Career guidance
- Scientific poster presentation
- CU Denver | CU Anschutz Graduate School application fee waiver

QUICK FACTS

Applications due: February 1

Financial Support:
\$6,000 plus housing & travel as needed

Eligibility:

- Open to college undergraduates
- Students from underrepresented backgrounds are encouraged to apply.
- Applications open to US citizens only.
