

MAP

MSU Denver/Anschutz Program for Meaningful Undergraduate Research Experience

To Apply:

Application Deadline:

Deadline Extended to December 20, 2021
~~December 1, 2021~~

Selections will be made by the beginning of January and the internship will start at early February

Research Track

- Participate meaningful research
- Juniors with advanced biology and chemistry courses are highly encouraged to apply
- Minimal commitment: 15 hours per week for 15 months
- Main requirement: enthusiasm and interest

PAID Research Positions

\$17 per hour for all positions

General Track

- An introduction to research
- Freshmen & sophomore are highly encouraged to apply
- Minimal commitment: 5 hours per week for one semester
- Main requirement: enthusiasm and interest

Dr. Julia Cooper: the biology of telomeres

visit <https://medschool.cuanschutz.edu/biochemistry/people/primary-faculty/cooper-Julia>

Dr. Suja Jagannathan: mRNA surveillance in health and disease

visit <http://jagannathan-lab.org/>

Dr. Aaron Johnson: mechanisms of chromatin-mediated gene silencing

visit <http://ajlab.org/>

Dr. Jeff Kieft: complex RNA structure and how RNA controls diverse biological processes

visit <http://www.kieftlab.org/>

Dr. Catherine Musselman: structural analysis of chromatin

visit <https://musselmanlaboratory.com/>

Dr. Srinivas Ramachandran: chromosome regulation in budding yeast

visit <http://chromatindynamics.com/>

Dr. Olivia Rissland: protein decay during early embryogenesis

visit <http://www.risslandlab.com/>

Dr. Matt Taliaferro: subcellular RNA localization

visit <http://www.taliaferrolab.com/>
