Step 2. Organize and Prioritize:

Using the major list from the first page, respond to the following reflection prompts.

How easy/hard was it to cross off majors on this list?

What major(s) did you find interesting, that you didn't know about before?

Now, look only at the majors you did not cross off:

In what major(s) do you have total confidence? Meaning, which major(s) do you feel confident that you'd enjoy?

In which major(s) would you like to try a course or two? (**Hint: let your advisor know when you meet with them**)

Which major(s) would be the most challenging for you to pursue?

Which major(s) did you find the most intriguing? (**Hint: this is a good thing to bring up with your advisor**)
