

Engagement opportunities for

INFORMATION TECHNOLOGY

MSU Denver offers multiple degrees aimed at preparing students to enter the ever-growing fields of computer programming and information systems. Our Computer Science program is ABET accredited, and our Computer Information Systems program is both ABET and AACSB accredited, meaning students are participating in the highest quality of classes and hands-on experiences.

Talent Pipeline

Partner with us to build a sustainable diverse talent pipeline for your organization with recruiting events and post opportunities for jobs, internships, service learning and volunteering. Contact C2Hub@MSUDenver.edu to connect with your industry navigator.

Career Link

Post your jobs and internships on the MSU Denver job board.

EVENTS

Internship Marketplace

Opportunity to promote your organization and internship program.

Business & IT Career Fair

Recruit for all functions across your business.

STEM Career Fair

Fair designed for employers hiring for jobs or internships in STEM fields.

Spring Job & Internship Fair

One of our largest recruiting events of the year, this fair is perfect to recruit spring graduates or students for summer internships.

Now Hiring Series

Employer sponsored event to present information about your organization and employment opportunities.

Diversity, Equity & Inclusion

MSU Denver provides companies a direct line to a workforce and talent pipeline that reflects Colorado and provides all students equitable career opportunities.

Professional Mentoring Program

Participate in our professional mentoring program, C.O.M.P.A.S.S. Community of Mentoring Professionals and Student Scholars. This program is mentee-driven and features a combination of virtual and in-person opportunities.

Diversity, Equity, and Inclusion (DEI)

Engage in rich dialogue and advance professional learning for students through our DEI focused events and programming. Become more connected and build stronger relationships with our Roadrunner diverse community.

Diversity in the Workplace Series

Join community and industry partners during these informative workshops to learn about DEI recruiting strategies and best practices.

Professional Learning & Development

Develop your employees with certificates, undergraduate degrees, master's programs and continuing education.

Career Launchpad

Provide affordable pathways to high-demand careers and multiple academic credentials. Take a noncredit course in a high-demand field that can lead to a job or convert the course to credit and get an MSU Denver certificate or degree.

Cybersecurity Certificate Clubs (C3)

The C3 will improve the employability of learners by equipping them with IT industry relevant certifications. MSU Denver is a CompTIA Authorized Partner.

Branding & Partnerships

Engage students through guest lecturing and student services. Collaborate with faculty experts on research and projects.

Guest Speaking

Share your knowledge and expertise with students in the classroom, or with our student groups like the Association of Computing Machinery student chapter, and the Association of Information Technology Professionals Brown Bag weekly series.

Join an Advisory Board

Connect with departments to consult on new and emerging technologies or business opportunities in your field or industry.

Senior Experience Classes

Partners can contribute to these final semester courses by providing content or real-world problems, and feedback to students through these courses.

Data Analysis and Business Intelligence Projects

Connect with multiple professors teaching data analysis, data science and business intelligence courses and have students use data to find insights, solutions or create visualizations for your organization.
