MSU DENVER'S STUDENT MENTAL HEALTH RESOURCES

Earning a college degree is worth it, but the journey can be filled with stressful and unexpected challenges. As an MSU Denver student you have access to professional resources that may help navigate a variety of life circumstances that could impact your success in college. Students pay a Health and Wellness fee which provides all MSU Denver students with the services below, including mental health office visits at no additional cost at both the Counseling Center and Health Center at Auraria.

MSU Denver CARE Team

303-615-0220

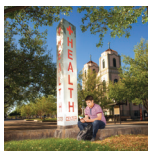

Through the **MSU Denver CARE Team** students benefit from individualized case management, crisis support, referrals to resources, and other guidance to help them be safe, successful and healthy while in college. To achieve the above, the CARE Team relies on members of our community to contact us when they observe a student who may be struggling. Case managers with the Student Care Center also support with referrals to on- or off-campus mental health services when appropriate. Call or visit www.msudenver.edu/care to file a CARE referral for yourself or a fellow Roadrunner.

Health Center at Auraria

303-615-9999

The **Health Center at Auraria's** mental health services are provided by all medical providers, which includes both general medicine clinicians and specialists in psychiatry. Each of these providers is licensed to prescribe medications when clinically indicated. Services include telehealth care, assessment, intervention and treatment for acute and/or chronic mental health needs, crisis intervention, addiction resources and medication management. Virtual and in-office visits are at no additional cost and are covered by the Health & Wellness fee for currently enrolled students.

MSU Denver Counseling Center

303-615-9988

The **MSU Denver Counseling Center** provides short-term individual counseling sessions to MSU Denver Students who want to address acute and/or chronic mental health needs and interpersonal stressors. These sessions are conducted or supervised by professional mental health providers. Additional services include crisis intervention, support groups, addiction resources, anti-racism workshops and processing spaces for marginalized groups. Virtual and in-office visits are at no additional cost and are covered by the Health & Wellness fee for currently enrolled students.

Students are encouraged to seek assistance when issues first arise.
