The MSU Denver Writing Center offers students resources for developing as writers and thinkers, sharing their work and ideas, and receiving thoughtful feedback on works in progress in a practical, friendly, collaborative environment. We can help students find topics, say what they really mean, plan and organize a writing project, document source material, avoid plagiarism, learn how to proofread their work, and more.

85% of students who visit the Writing Center do so at the suggestion of an instructor

Some ways that you can encourage students to visit the Writing Center:

- ◆ Mention the Writing Center in your syllabus.
- ◆ Schedule a class orientation by going to msudenver.mywconline.com.
- ◆ Remind students that visiting the Writing Center is a smart thing for *all writers* to do, rather than a punitive measure for weak writers.
