

Master of Professional Accountancy (MPAcc)

The MSU Denver Master of Professional Accountancy (MPAcc) program offers a streamlined path to an advanced accounting degree, consisting of 30 credits without a thesis requirement.

The degree equips students not only with the knowledge needed for Colorado's CPA exam but also fosters critical thinking, communication, and leadership skills through research-based, writing-intensive coursework.

Our MPAcc program is a specialized master's degree, providing current and aspiring accounting professionals the opportunity to explore the vast array of accounting career paths and certifications as they deepen their knowledge and hone their skills to advance professionally.

Choose an experiential learning elective:

SMALL BUSINESS CONSULTING & ACCOUNTING: Apply real-world accounting concepts to small businesses and interact with owners.

RISK ASSURANCE & ADVANCED PROJECTS: Serve as a student internal auditor guiding clients on improving their processes and procedures.

MASTER'S ACCOUNTING INTERNSHIP: Gain supervised accounting internship experience in a business entity or governmental agency.

TAX SITE LEADERSHIP & MANAGEMENT: Supervise students in our VITA site, interact with community partners, and apply tax knowledge.

ACCOUNTING RESEARCH ASSISTANTSHIP: Assist faculty with research projects, including literature review, data collection, and presentation.
