

## Master of Science in Nutrition

### Spring Start | Full Time | General Nutrition Concentration Advising Snapshot

Students admitted to the MSN are advised to follow the provided sample advising snapshots to avoid scheduling issues during their degree, to ensure timely completion of their degree, and to ensure a seat in the courses outlined for each semester of study.

| Semester One (Spring)   |  |
|-------------------------|--|
| 1 <sup>st</sup> 8 weeks | NUT 5100 Introduction to Nutrition Research (3)  |
|                         | NUT 5110 Macronutrients in Health and Disease (3)  |
|                         | NUT 5170 Nutrition and the Community: Equity, Inclusion and Access (3)   |
| 2 <sup>nd</sup> 8 weeks | NUT 5120 Vitamins, Minerals, and Bioactive Compounds in Health and Disease (3) <i>{prerequisite: NUT 5110}</i> |
|                         | NUT 6000 Graduate Nutrition Capstone I (1)   |
|                         | Elective (3-6)*  |

| Semester Two (SUMMER) |  |
|-----------------------|--|
|                       | NUT 5160 Empowered Leadership in Nutrition (3) |
|                       | Elective (3)*                                  |

| Semester Three (Fall)   |   |
|-------------------------|---|
| 1 <sup>st</sup> 8 weeks | NUT 5130 Advanced Assessment and Intervention in Clinical Nutrition (3)<br><i>{prerequisites: NUT 5120}</i> |
|                         | NUT 6010 Graduate Nutrition Capstone II (1)   |
| 2 <sup>nd</sup> 8 weeks | NUT 5150 Lifecycle Nutrition (3)  |
|                         | NUT 6020 Graduate Nutrition Capstone III (1)  |
|                         | Elective (3)*   |

Please meet with your advisor to finalize your individualized degree progress plan.

\*General Nutrition Concentration students are required to take at least two 3 credit elective courses to reach the minimum total credits required to graduate. Accelerated Program students will need three 3-credit elective courses. See the chart below for elective offerings.
