

In preparation for Dr. Su's visit to Auraria campus on November 6th we wanted to make a book club!! His book is about how math is inherently human and for everybody. We will discuss math anxiety and how to make math inclusive.

This event is welcome to everyone!
You should come if you have an interest in how math may be in your everyday life or how math can help you flourish.

Book Club

FRANCIS SU'S MATH FOR HUMAN FLOURISHING

$W \in \{M|M/a\}$
