DENVER

# AGENDA

- 01** Vision & Introduction (10 Minutes)

---
- 02** Questions 1 & 2 (45 Minutes)

---
- 03** Break (10 – 15 Minutes)

---
- 04** Question 3 (30 Minutes)

---
- 05** Final Question & Wrap Up (15 Minutes)

# INTRODUCTIONS

- Please sit next to someone with a different color note paper
  - Intros: Name, Title at your institution, What is your role in the transfer process currently?

# VISION

We are advancing a commitment to create a shared system that aligns to each institution's distinct identities, which in part gives all students a seamless experience throughout their higher education journey. Whether a CityHawk or a Roadrunner, the type of bird would not matter, just that the journey would be much smoother."

Specifically, we envision a partnership that:

- 1) Provides robust, easy inter-institutional enrollment between CCD and MSU Denver for all students, increasing completion rates and credit loads for students at each institution.
- 2) Establishes completion at CCD as the primary milestone, while smoothing the transfer to MSU Denver. This will result in more students transferring to MSU Denver.

Our transfer summit is focused on making the details in this vision come to life. To that end, we are bringing together experts from academic departments, academic advising, marketing, and others throughout our two institutions to collaborate on removing barriers.

The intention now marks the transition from planning to collective action. The participants in the transfer summit will provide the critical next step. Our focused work will serve as a model for how we can better effect student movement between CCD and MSU Denver, ultimately increasing credential attainment and upward mobility for the community of students we serve.

1. What are the core elements of the ideal CCD/MSU Denver student experience in a 2+2 scenario?
2. Which elements of the student experience should be institution-specific, and which should be shared or blended?

## QUESTIONS

BREAK

# QUESTION

3. Identify key gaps in current vs ideal state - what are low-cost or modest-cost resources and practices that can close gaps in the near term?

# QUESTION

---

4. What needs to be in place to find forward momentum post-Summit?

**FINAL THOUGHTS?**
