

Hello, my name is Charleen Bell and I have been a Licensed Clinical Social Worker in Colorado since 2009. I graduated from the University of Denver with my Master's in Social Work in 2006 and while I was there I received the Colorado Child Welfare Stipend in 2005 and 2006. I also worked as an Ongoing Child Welfare Caseworker from 2006 to 2010 and I am currently working as an Adult Protection Supervisor.

I am interested in providing clinical supervision for LCSW candidates that are currently working in social services. I believe the work we do is so valuable and I want to support clinicians in that work as well as help them advance in their career by obtaining their LCSW.

In addition to working as a caseworker for the county, I also have experience working in residential treatment centers, health care facilities focusing on behavioral health needs and end of life care as well as long term care facilities. While working in these various settings, I have been fortunate enough to work with teenagers, families, adults and seniors. And throughout the years, I have also had interns and have enjoyed supervising and learning with them.

I am willing to provide clinical supervision to caseworkers that are currently working in social services at a reduced cost. I want to do this because I believe the work that we all do is extremely important and I want to support individuals in these important roles to grow as clinicians. Please email me to schedule a 15 minute phone consultation so that I can answer any questions and we can discuss options.

References:

"I have worked with Charleen Bell for almost 10 years. I started out with Charleen as my supervisor for my graduate internship. She was an incredible teacher, and I was lucky to have had her as my supervisor and to be able to learn from her. After that we worked together as colleagues. Charleen has always been a great resource and support. She goes above and beyond for her patients/clients as well as her colleagues. She is a great social worker and has experience in so many different fields of social work."

Natalie Fisher, LCSW

Charleen was my LCSW consultant when I stepped back into case management and discharge planning for a skilled nursing rehab facility. I truly enjoyed visiting with Charleen monthly and texting her when other questions popped up. Charleen offered guidance for delicate interpersonal situations and always kept me and my social services department up to date with constantly changing regulations. If she didn't know something off-hand, I could always count on her to follow up with detailed research and explanations shortly after meeting. I wholeheartedly recommend working with Charleen due to her caring, compassionate, and knowledgeable nature.
